SPECIAL PROVISIONS

This is an "Indefinite Quantity Bid" pursuant to Section 3119(i)(2) of the 2GAR Procurement Regulations. The quantities reflected are estimated requirements projected within a twelve (12) month period. These amounts may increase during the term of this bid. However, regardless of the fluctuation of quantities, this bid shall be subject to the availability of funds.

Delivery:

180 Days Upon Receipt of Purchase Order. Schedule time and quantity will be coordinated between the successful bidder and the requesting department on an as needed basis.

Contract Period:

The term of this contract is for a period of one (1) year on an as needed basis upon availability of funds

Additional Requirement:

In the event that other agencies within the Government of Guam, having the same requirements, upon notifications and acceptance of the additional requirements, the effective price of said bid, shall be used as a confirm price. This additional requirement shall not exceed the term of this bid.

Special Provisions

Restriction against Sex Offenders Employed by service providers to Government of Guam from working on Government Property.

If a contract for services is awarded to the bidder or offeror, then the service provider must warranty that no person in its employment who has been convicted of a sex offense under the provisions of chapter 25 of Title 9 of Guam code Annotated or of an offense defined in Article 2 of chapter 28 of Title 9 of the Guam Code annotated, or who has been convicted in any other jurisdiction of an offense with the same elements as heretofore defined, or who is listed on the Sex Offender Registry, shall provide services on behalf of the service provider while on government of Guam property, with the exception of public highways. If any employee of a service provider is providing services on government property and is convicted subsequent to an award of a contract, then the service provider warrants that it will notify the Government of the conviction within twenty-four (24) hours of the conviction, and will immediately remove such convicted person from providing services on government property. If the service provider is found to be in violation of any of the provisions of this paragraph, then the government will give notice to the service provider to take corrective action. The service provider shall take corrective action within twenty-four (24) hours of notice from the Government, and the service provider shall notify the Government when action has been taken. If the service providers fail to take corrective steps within twenty-four (24) hours of notice from the Government in its sole discretion may suspend temporarily and contract for services until corrective action has been taken.

Revision No.: 17
Date Of Revision: 12/22/2014

Note: Executive Order (EO) 13658 establishes an hourly minimum wage of \$10.10 for 2015 that applies to all contracts subject to the Service Contract Act for which the solicitation is issued on or after January 1, 2015. If this contract is covered by the EO, the contractor must pay all workers in any classification listed on this wage determination at least \$10.10 (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract. The EO minimum wage rate will be adjusted annually. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: \$4.02 per hour or \$160.80 per week or \$696.79 per month

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor; and 4 weeks after 3 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of ten paid holidays per year, New Year's Day, Martin Luther King Jr's Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) COMPUTER EMPLOYEES: Under the SCA at section 8(b), this wage determination does not apply to any employee who individually qualifies as a bona fide executive, administrative, or professional employee as defined in 29 C.F.R. Part 541. Because most Computer System Analysts and Computer Programmers who are compensated at a rate not less than \$27.63 (or on a salary or fee basis at a rate not less than \$455 per week) an hour would likely qualify as exempt computer professionals, (29 C.F.R. 541. 400) wage rates may not be listed on this wage determination for all occupations within those job families. In addition, because this wage determination may not list a wage rate for some or all occupations within those job families if the survey data indicates that the prevailing wage rate for the occupation equals or exceeds \$27.63 per hour conformances may be necessary for certain nonexempt employees. For example, if an individual employee is nonexempt but nevertheless performs duties within the scope of one of the Computer Systems Analyst or Computer Programmer occupations for which this wage determination does not specify an SCA wage rate, then the wage rate for that employee must be conformed in accordance with the conformance procedures described in the conformance note included on this wage determination.

Additionally, because job titles vary widely and change quickly in the computer industry, job titles are not determinative of the application of the computer professional exemption. Therefore, the exemption applies only to computer employees who satisfy the compensation requirements and whose primary duty consists of:

- (1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;
- (2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;
- (3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or
- (4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).
- 2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

employed in a position that represents a high degree of hazard when working with or in close proximity to ordinance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordance, explosives, and incendiary material differential pay.

** UNIFORM ALLOWANCE **

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition, April 2006, unless otherwise indicated. Copies of the Directory are available on the Internet. A links to the Directory may be found on the WHD home page at http://www.dol.gov/esa/whd/ or through the Wage Determinations On-Line (WDOL) Web site at http://wdol.gov/.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined.

Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)}When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order

proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.

- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.
- 5) The contracting officer transmits the Wage and Hour decision to the contractor.
- 6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

INSTRUCTION TO PROVIDERS:

NOTICE to all Insurance and Bonding Institutions:

The Bond requires the signatures of the Vendor, two (2) major Officers of the Surety and Resident General Agent, if the Surety is a foreign or alien surety.

When the form is submitted to General Services Agency, it should be accompanied with copies of The following:

- 1. Current Certificate of Authority to do business on Guam issued by the Department of Revenue and Taxation.
- 2. Power of Attorney issued by the Surety to the Resident General Agent.
- 3. Power of Attorney issued by two (2) major officers of the Surety to whoever is signing on their behalf.

Bonds, submitted as Bid Guarantee, without signatures and supporting documents are invalid and Bids will be rejected.

GOVERNMENT OF GUAM GENERAL TERMS AND CONDITIONS

SEALED BID SOLICITATION AND AWARD

Only those Boxes checked below are applicable to this bid.

- [X] 1. AUTHORITY: This solicitation is issued subject to all the provision of the Guam Procurement Act (5GCA, Chapter 5) and the Guam Procurement Regulations (copies of both are available at the Office of the Complier of laws, Department of Law, copies available for inspection at General Services Agency). It requires all parties involved in the Preparation, negotiation, performance, or administration of contracts to act in good faith.
- [X] 2. GENERAL INTENTION: Unless otherwise specified, it is the declared and acknowledged intention and meaning of these General Terms and conditions for the bidder to provide the Government of Guam (Government) with specified services or with materials, supplies or equipment completely assembled and ready for use.
- [X] 3. **TAXES**: Bidders are cautioned that they are subject to Guam Income Taxes as well as all other taxes on Guam Transactions. Specific information on taxes may be obtained from the Director of Revenue and Taxation.
- [X] 4. **LICENSING**: Bidders are cautioned that the Government will not consider for award any offer submitted by a bidder who has not complied with the Guam Licensing Law. Specific information on licenses may be obtained from the Director of Revenue and Taxation.
- [X] 5. **LOCAL PROCUREMENT PREFERENCE**: All procurement of supplies and services where possible, will be made from among businesses licensed to do business on Guam in accordance with section 5008 of the Guam Procurement Act (5GCA, Chapter 5) and Section 1-104 of the Guam Procurement Regulations.
- [] 6. **COMPLIANCE WITH SPECIFICATIONS AND OTHER SOLICITATION REQUIREMENTS**: Bidders shall comply with all specifications and other requirements of the Solicitation.
- [] 7. "ALL OR NONE" BIDS: NOTE: By checking this item, the Government is requesting all of the bid items to be bided or none at all. The Government will not award on an itemized basis.
- [X] 8. **INDEPENDENT PRICE DETERMINATION**: The bidder, upon signing the Invitation for Bid, certifies that the prices in his bid were derived at without collusion, and acknowledge that collusion and anti-competitive practices are prohibited by law. Violations will be subject to the provision of Section 5651 of that of the Guam Procurement Act. Other existing civil, criminal or administrative remedies are not impaired and may be in addition to the remedies in Section 5651 of the Government code.
- [X] 9. **BIDDER'S PRICE**: The Government will consider not more than two (2) (Basic and Alternate) item prices and the bidder shall explain fully each price if supplies, materials, equipment, and/or specified services offered comply with specifications and the products origin. Where basic or alternate bid meets the minimum required specification, cost and other factors will be considered. Failure to explain this requirement will result in rejection of the bid.
- [X] 10. BID ENVELOPE: Envelope shall be sealed and marked with the bidder's name, Bid number, time, date and place of Bid Opening.
- [X] 11. BID GUARANTEE REQUIREMENT: Bidder is required to submit a Bid Guarantee Bond or standby irrevocable Letter of Credit or Certified Check or Cashier's Check in the same bid envelope to be held by the Government pending award. The Bid Guarantee Bond, Letter of Credit, Certified Check or Cashier's Check must be issued by any local surety or banking institution licensed to do business on Guam and made payable to the Treasure of Guam in the amount of fifteen percent (15%) of his highest total bid offer. The Bid Bond must be submitted on Government Standard Form BB-1 (copy enclosed). Personal Checks will not be accepted as Bid Guarantee. If a successful Bidder (contractor) withdraws from the bid or fails to enter into contract within the prescribed time, such Bid guarantee will be forfeited to the Government of Guam. Bids will be disqualified if not accompanied by Bid Bond, Letter of Credit, Certified Check or Cashier's check. Bidder must include in his/her bid, valid copies of a Power of Attorney from the Surety and a Certificate of Authority from the Government of Guam to show proof that the surety company named on the bond instrument is authorized by the Government of Guam and qualified to do business on Guam. For detailed information on bonding matters, contact the Department of Revenue and Taxation. Failure to submit a valid Power of Attorney and Certificate of Authority on the surety is cause for rejection of bid. Pursuant to 5 GCA § 5212, all competitive sealed bidding for the procurement of supplies or services exceeding \$25,000.00 a 15% Bid Security of the total bid price must accompany the bid package. The bid bond, Letter of Credit, Certified Check or Cashier's Check will serve as Bid Security for this procurement.
- [X] 12. **PERFORMANCE GUARANTEE**: Bidders who are awarded a contract under this solicitation, guarantee that goods will be delivered or required services performed within the time specified. Failure to perform the contract in a satisfactory manner may be cause for suspension or debarment from doing business with the Government of Guam. In addition, the Government will hold the Vendor liable and will enforce the requirements as set forth in Section 40 of these General Terms and Conditions.
- [X] 13. **SURETY BONDS**: Bid and Bid Bonds coverage must be signed or countersigned in Guam by a foreign or alien surety's resident general agent. The surety must be an Insurance Company, authorized by the government of Guam and qualified to do business in Guam. Bids will be disqualified if the Surety Company does not have a valid Certificate of Authority from the Government of Guam to conduct business in Guam.
- [X] 14. **COMPETENCY OF BIDDERS**: Bids will be considered only from the such bidders who, in the opinion of the Government, can show evidence of their ability, experience, equipment, and facilities to render satisfactory service.
- [X] 15. **DETERMINATION OF RESPONSIBILITY OF BIDDERS**: The Chief Procurement Officer reserves the right for securing from bidders information to determine whether or not they are responsible and to inspect plant site, place of business; and supplies and services as necessary to determine their responsibility in accordance with Section 15 of these General Terms and Conditions. (2 GAR, Div. 4 § 3116)

G.S.A. Form 112 Revised 8/12

[X] 16. STANDARD FOR DETERMINATION OF LOWEST RESPONSIBLE BIDDER:

In determining the lowest responsible offer, the Chief Procurement Officer shall be guided by the following:

- a) Price of items offered.
- b) The ability, capacity, and skill of the Bidder to perform.
- c) Whether the Bidder can perform promptly or within the specified time.
- d) The quality of performance of the Bidder with regards to awards previously made to him.
- e) The previous and existing compliance by the Bidder with laws and regulations relative to procurement.
- f) The sufficiency of the financial resources and ability of the Bidder to perform.
- g) The ability of the bidder to provide future maintenance and services for the subject of the award.
- h) The compliance with all of the conditions to the Solicitation.
- [X] 17. **TIE BIDS**: If the bids are for the same unit price or total amount in the whole or in part, the Chief Procurement Officer will determine award based on 2 GAR, Div. 4, § 3109(o) (2) or to reject all such bids.
- [X] 18. **BRAND NAMES**: Any reference in the Solicitation to manufacturer's Brand Names and number is due to lack of a satisfactory specification of commodity description. Such preference is intended to be descriptive, but not restrictive and for the sole purpose of indicating prospective bidders a description of the article or services that will be satisfactory. Bids on comparable items will be considered provided the bidder clearly states in his bid the exact articles he is offering and how it differs from the original specification.
- [X] 19. **DESCRIPTIVE LITERATURE**: Descriptive literature(s) as specified in this solicitation must be furnished as a part of the bid and must be received at the date and time set for opening Bids. The literature furnished must clearly identify the item(s) in the Bid. The descriptive literature is required to establish, for the purpose of evaluation and award, details of the product(s) the bidder proposes to furnish including design, materials, components, performance characteristics, methods of manufacture, construction, assembly or other characteristics which are considered appropriate. Rejection of the Bid will be required if the descriptive literature(s) do not show that the product(s) offered conform(s) to the specifications and other requirements of this solicitation. Failure to furnish the descriptive literature(s) by the time specified in the Solicitation will require rejection of the bid.
- [] 20. **SAMPLES**: Sample(s) of item(s) as specified in this solicitation must be furnished as a part of the bid and must be received at the date and time set for opening Bids. The sample(s) should represent exactly what the bidder proposes to furnish and will be used to determine if the item(s) offered complies with the specifications. Rejection of the Bid will be required if the sample(s) do not show that the product(s) offered conform(s) to the specifications and other requirements of this solicitation. Failure to furnish the sample(s) by the time specified in the Solicitation will require rejection of the Bid.
- [] 21. **LABORATORY TEST**: Successful bidder is required to accompany delivery of his goods with a Laboratory Test Report indicating that the product he is furnishing the Government meets with the specifications. This report is on the bidder's account and must be from a certified Testing Association.
- [X] 22. AWARD, CANCELLATION, & REJECTION: Award shall be made to the lowest responsible and responsive bidder, whose bid is determined to be the most advantageous to the Government, taking into consideration the evaluation factors set forth in this solicitation. No other factors or criteria shall be used in the evaluation. The right is reserved as the interest of the Government may require to waive any minor irregularity in bid received. The Chief Procurement Officer shall have the authority to award, cancel, or reject bids, in whole or in part for any one or more items if he determines it is in the public interest. Award issued to the lowest responsible bidder within the specified time for acceptance as indicated in the solicitation, results in a bidding contract without further action by either party. In case of an error in the extension of prices, unit price will govern. It is the policy of the Government to award contracts to qualified local bidders. The Government reserves the right to increase or decrease the quantity of the items for award and make additional awards for the same type items and the vendor agrees to such modifications and additional awards based on the bid prices for a period of thirty (30) days after original award. No. award shall be made under this solicitation which shall require advance payment or irrevocable letter of credit from the Government (2 GAR, Div.4 §1103).
- [] 23. MARKING: Each outside container shall be marked with the Purchase Order number, item number, brief item description and quantity. Letter marking shall not be less than 3/4" in height.
- [X] 24. **SCHEDULE FOR DELIVERY**: Successful bidder shall notify the General Services Agency, Telephone Nos. 475-1707 or 475-713, at least twenty-four (24) hours before delivery of any item under this solicitation.
- [] 25. **BILL OF SALE**: Successful supplier shall render Bills of Sale for each item delivered under this contract. Failure to comply with this requirement will result in rejection of delivery. The Bill of Sale must accompany the items delivered but will not be considered as an invoice for payment. Supplier shall bill the Government in accordance with billing instructions as indicated on the Purchase Order.
- [] 26. MANUFACTURER'S CERTIFICATE: Successful bidder is required, upon delivery of any item under this contract, to furnish a certificate from the manufacturer indication that the goods meet the specifications. Failure to comply with this request will result in rejection of delivery payment. Supplier shall bill the Government in accordance with billing instructions as indicated on the Purchase Order.
- [X] 27. **INSPECTION**: All supplies, materials, equipment, or services delivered under this contract shall be subject to the inspection and/or test conducted by the Government at destination. If in any case the supplies, materials, equipment, or services are found to be defective in material, workmanship, performance, or otherwise do not conform with the specifications, the Government shall have the right to reject the items or require that they be corrected. The number of days required for correction will be determined by the Government.
- [] 28. MOTOR VEHICLE SAFETY REQUIREMENTS: The Government will only consider Bids on motor vehicles which comply with the requirements of the National Traffic and Motor Vehicle safety Act of 1966 (Public Law 89-563) and Clean Air Act as amended (Public Law 88-206), that are applicable to Guam. Bidders shall state if the equipment offered comply with these aforementioned Federal Laws.

[] 29. **SAFETY INSPECTION**: All motor vehicles delivered under this contract must pass the Government of Guam Vehicle Inspection before delivery at destination.

[] 30. GUARANTEE:

a) Guarantee of Vehicle Type of Equipment:

The successful bidder shall guarantee vehicular type of equipment offered against defective parts, workmanship, and performance, for a period of not less than one (1) year after date of receipt of equipment. Bidder shall also provide service to the equipment for at least one (1) year. Service to be provided shall include, but will not be limited to tune ups (change of spark plugs, contact points and condensers) and lubrication (change of engine and transmission oil). All parts and labor shall be at the expense of the bidder. All parts found defective and not caused by misuse, negligence or accident within the guarantee period shall be repaired, replaced, or adjusted within six (6) working days after notice from the Government and without cost to the Government. Vehicular type of equipment as used in this context shall include equipment used for transportation as differentiated from tractors, backhoes, etc.

b) Guarantee of Other Type of Equipment:

The successful bidder shall guarantee all other types of equipment offered, except those mentioned in 30a, above, against defective parts, workmanship, and performance for a period of not less than three (3) months after date of receipt of equipment. Bidder shall also provide service to the equipment for at least three (3) months. All parts found defective within that period shall be repaired or replaced by the Contractor without cost to the Government. Repairs, adjustments or replacements of defective parts shall be completed by the contractor within six (6) working days after notice from the Government.

- (c) Compliance with this Section is a condition of this Bid.
- [X] 31. REPRESENTATION REGARDING ETHICS IN PUBLIC PROCUREMENT: The bidder or contractor represents that it has not knowingly influenced and promises that it will not knowingly influence a Government employee to breach any of the ethical standards and represents that it has not violated, is not violating, and promises that it will not violate the prohibition against gratuities and kickbacks set forth on Chapter 11 (Ethics in Public Contracting) of the Guam Procurement Act and in Chapter 11 of the Guam Procurement Regulations.
- [X] 32. REPRESENTATION REGARDING CONTINGENT FEES: The contractor represents that it has not retained a person to solicit or secure a Government contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, except for retention of bona fide employees or bona fide established commercial selling agencies for the purpose of securing business (GPR Section 11-207).
- [X] 33. **EQUAL EMPLOYMENT OPPORTUNITY**: Contractors shall not discriminate against any employee or applicant of employment because of race, color, religion, sex, or national origin. The contractor will take affirmative action to ensure that employees are treated equally during employment without regards to their race, color, religion, sex, or national origin.
- [X] 34. **COMPLIANCE WITH LAWS**: Bidders awarded a contract under this Solicitation shall comply with the applicable standard, provisions, and stipulations of all pertinent Federal and/or local laws, rules, and regulations relative to the performance of this contract and the furnishing of goods.
- [] 35. **CHANGE ORDER**: Any order issued relative to awards made under this solicitation will be subject to and in accordance with the provisions of Section 6-101-03.1 of the Guam Procurement Regulations.
- [X] 36. STOP WORK ORDER: Any stop work order issued relative to awards made under this solicitation will be subject to and in accordance with the provisions of Section 6-101-04.1 of the Guam Procurement Regulations.
- [X] 37. **TERMINATION FOR CONVENIENCE**: Any termination order for the convenience of the Government issued relative to wards made under this solicitation will be subject to and in accordance with the provisions of Section 6-101.10 of the Government Procurement Regulations.
- [X] 38. TIME FOR COMPLETION: It is hereby understood and mutually agreed by and between the contractor and the Government that the time for delivery to final destination or the timely performance of certain services is an essential condition of this contract. If the contractor refuses or fails to perform any of the provisions of this contract within the time specified in the Purchase Order (from the date Purchase Order is acknowledged by vendor), then the contractor is in default. Defaults will be treated subject to and in accordance with the provisions of 2 GAR, Div. 4 § 6101(8)
- [X] 39. JUSTIFICATION OF DELAY: Bidders who are awarded contracts under this Solicitation, guarantee that the goods will be delivered to their destination or required services rendered within the time specified. If the bidder is not able to meet the specified delivery date, he is required to notify the Chief Procurement Officer of such delay. Notification shall be in writing and shall be receive by the Chief Procurement Officer at least twenty-four (24) hours before the specified delivery date. Notification of delay shall include an explanation of the causes and reasons for the delay including statement(s) from supplier or shipping company causing the delay. The Government reserves the right to reject delay justification if, in the opinion of the Chief Procurement Officer, such justification is not adequate.

- [X] 40. **LIQUIDATED DAMAGES**: When the contractor is given notice of delay or nonperformance as specified in Paragraph 1 (Default) of the Termination for Default Clause of this contract and fails to cure in the time specified, the contractor shall be liable for damages for delay in the amount of one-fourth of one percent (1%) of outstanding order per calendar day from date set for cure until either the territory reasonable obtains similar supplies or services if the contractor is terminated for default, or until the contractor provides the supplies or services if the contractor is not terminated for default. To the extent that the contractor's delay or nonperformance is excused under Paragraph 40 (Excuse for Nonperformance or Delayed Performance) of the Termination for Default Clause of this contract, liquidated damages shall not be due the territory. The contractor remains liable for damages caused other than by delay. 2 GAR, Div. 4 §6101(9) (a).
- [X] 41. PHYSICAL LIABILITY: If it becomes necessary for the Vendor, either as principal, agent or employee, to enter upon the premises or property of the Government of Guam in order to construct, erect, inspect, make delivery or remove property hereunder, the Vendor hereby covenants and agrees to take, use, provide and make all proper, necessary and sufficient precautions, safeguards and protections against the occurrence of any accidents, injuries or damages to any person or property during the progress of the work herein covered, and to be responsible for, and to indemnify and save harmless the Government of Guam from the payment of all sums of money by reason of all or any such accidents, injuries or damages that may occur upon or about such work, and fines, penalties and loss incurred for or by reasons of the violations of any territorial ordinance, regulations, or the laws of Guam or the United States, while the work is in progress. Contractor will carry insurance to indemnify the Government of Guam against any claim for loss, damage or injury to property or persons arising out of the performance of the Contractor or his employees and agents of the services covered by the contract and the use, misuse or failure of any equipment used by the contractor or his employees or agents, and shall provide certificates of such insurance to the Government of Guam when required.
- [X] 42. Contract will be cancelled if funds not appropriated or insufficient, and that government will timely inform contractor. 2 GAR, Div.4 § 3121(e) (1) (C) and 2 GAR, Div.4 § 3121(e)(1)(D).
- [] 43. If cancelled, contractor will be reimbursed unamortized reasonably incurred non-recurring costs. 2 GAR, Div.4 § 3121(e) (1) (G).
- [X] 44. **CONTACT FOR CONTRACT ADMINISTRATION**: If your firm receives a contract as a result of this Solicitation, please designate a person whom we may contact for prompt administration.

GOVERNMENT OF GUAM

SEALED BID SOLICITAITON INSTRUCTIONS

1. BID FORMS: Each bidder shall be provided with two (2) sets of Solicitation forms. Additional copies may be provided upon request. Bidders requesting additional copies of said forms will be charged per page in accordance with 5 GCA § 10203 of the Government Code of Guam. All payments for this purpose shall be by cash, certified check or money order and shall be made payable to the General Services Agency (EO 86-24).

2. PREPARATIONS OF BIDS:

- a) Bidders are required to examine the drawings, specifications, schedule, and all instructions. Failure to do so will be at bidder's risk.
- b) Each bidder shall furnish the information required by the Solicitation. The bidder shall sign the solicitation and print or type his name on the Schedule. Erasures or other changes must be initialed by the person signing the bid. Bids signed by an agent are to be accompanied by evidence of this authority unless such evidence has been previously furnished to the issuing office.
- c) Unit price for each unit offered shall be shown and such price shall include packing unless otherwise specified. A total shall be entered in the amount column of the Schedule for each item offered. In case of discrepancies between a unit price and extended price, the unit price will be presumed to be correct.
- d) Bids for supplies or services other than those specified will not be considered. Time, if stated as a number of days, means calendar days and will include Saturdays, Sundays, and holidays beginning the day after the issuance of a Notice to Proceed. Time stated ending on a Saturday, Sunday or Government of Guam legal holiday will end at the close of the next business day.
- 3. EXPLANATION TO BIDDERS: Any explanation desired by a bidder regarding the meaning or interpretation of the Solicitation, drawings, specifications, etc., must be submitted in writing and with sufficient time allowed for a written reply to reach all bidders before the submission of their bids. Oral explanations or instructions given before the award of the contract will not be binding. Any information given to a prospective bidder concerning a Solicitation will be furnished to all prospective bidders in writing as an amendment to the Solicitation if such information would be prejudicial to informed bidders.
- 4. ACKNOWLEDGEMENT OF AMENDMENTS TO SOLICITATIONS: Receipt of an amendment to a Solicitation by a bidder must be acknowledged by signing an acknowledgement of receipt of the amendment. Such acknowledgement must be received prior to the hour and date specified for receipt of bids.

5. SUBMISSION OF BIDS:

- a) Bids and modifications thereof shall be enclosed in sealed envelopes and addressed to the office specified in the Solicitation. The bidder shall show the hour and date specified in the Solicitation for receipt, the Solicitation number, and the name and address of the bidder on the face of the envelope.
- b) Telegraphic bids will not be considered unless authorized by the Solicitation. However, bids may be modified or withdrawn by written or telegraphic notice, provided such notice is received prior to the hour and date specified for receipt (see paragraph 6 of these instructions).
- c) Samples of items, when required, must be submitted within the time specified, unless otherwise specified by the Government, at no expense to the Government. If not destroyed by testing, samples will be returned at bidder's request and expense, unless otherwise specified by the Solicitation.
- d) Samples or descriptive literature should not be submitted unless it is required on this solicitation. Regardless of any Attempt by a bidder to condition the bid, unsolicited samples or descriptive literature will not be examined or tested at the bidder's risk, and will not be deemed to vary any of the provisions of this Solicitation.
- FAILURE TO SUBMIT BID: If no bid is to be submitted, do not return the solicitation unless otherwise specified. A
 letter or postcard shall be sent to the issuing office advising whether future Solicitations for the type of supplies or
 services covered by this Solicitation are desired.

7. LATE BID, LATE WITHDRAWALS, AND LATE MODIFICATIONS:

- a) Definition: Any bid received after the time and date set for receipt of bids is late. Any withdrawal or modification of a bid received after the time and date set for opening of bids at the place designated for opening is late (Guam Procurement Regulations 2 GAR, Div.4 §3109(k)).
- b) Treatment: No late bid, late modification, or late withdrawal will be considered unless received before contract award, and the bid, modification, or withdrawal would have been timely but for the action or inaction of territorial personnel directly serving the procurement activity.

DOA Form 295-Revised 2/89

8. DISCOUNTS:

- a) Notwithstanding the fact that prompt payment discounts may be offered, such offer will not be considered in evaluating bids for award unless otherwise specified in the Solicitation. However, offered discounts will be taken if payment is made within the discount period, even though not considered in the evaluation of bids.
- b) In connection with any discount offered, time will be computed from date of delivery and acceptance of the supplies to the destination as indicated in the purchase order or contract. Payment is deemed to be made for the purpose of earning the discount on the date of mailing of the Government check.
- 9. GOVERNMENT FURNISHED PROPERTY: No material, labor or facilities will be furnished by the Government unless otherwise provided for in the Solicitation.
- 10. SELLER' INVOICES: Invoices shall be prepared and submitted in quadruplicate (one copy shall be marked "original") unless otherwise specified. Invoices shall be "certified true and correct" and shall contain the following information: Contract and order number (if any), item numbers, description of supplies or services, sizes, quantities, unit prices, and extended total. Bill of lading number and weight of shipment will be shown for shipments made on Government bills of lading.
- 11. RECEIPT, OPENING AND RECORDING OF BIDS: Bids and modifications shall be publicly opened in the presence of one or more witnesses, at the time, date, and place designated in the Invitation for Bids. The name of each bidder, the bid price, and such other information as is deemed appropriate by the Procurement Officer, shall be read aloud and recorded, or otherwise made available. The names and addresses of required witnesses shall be recorded at the opening. The opened bids shall be available for public inspection except to the extent the bidder designates trade secrets or other proprietary data to be confidential as set forth in accordance with Section 12, below. Material so designated shall accompany the bid and shall be readily separable from the bid in order to facilitate public inspection of the non-confidential portion of the bid. Prices, makes and models or catalogue numbers of the items offered, deliveries, and terms of payment shall be publicly available at the time of bid opening regardless of any designation to the contrary (Guam Procurement Regulations 2 GAR, Div.4 §3109(k)).
- 12. CONFIDENTIAL DATA: The Procurement Officer shall examine the bids to determine the validity of any requests for nondisclosure of trade secrets and other proprietary data.

INTRODUCTION

These specifications are reflective of the Guam Fire Department and its needs. Most importantly, the specifications herein stated are to maximize firefighter capabilities and minimize risk of injuries, therefore exceptions will not be acceptable. The Guam Fire Department is the primary *Fire and Emergency Services* organization on the island of Guam serving a population of over 150,000. Its primary mission is to provide quality emergency and non-emergency services to the population it serves either living, working, investing or visiting the island of Guam. This is accomplished by responding to fires, emergency medical incidents, hazardous materials incidents, and performing services to save life, property and preserve its environment. Guam's geographical location and inherent exposure to the elements of its environment include high heat temperatures, corrosion and decomposition factors, humidity and moisture. These are of some major concerns for any vehicle type to consider in the field of fire and emergency services on a Pacific island approximately 212 square miles with an elevation of 1332 feet.

INTENT OF SPECIFICATIONS

Bids are requested for **ONE HUNDRED FIFTY (150) SETS OF FIREFIGHTING TURNOUT GEAR** to include structural firefighting turnout pants, coat, helmets, gloves, boots, and hoods. In general, this Firefighting Turnout Gear (TOG) shall provide protection during structural firefighting operations where there is a threat of fire and against adverse environmental effects during structural firefighting as well as when certain physical hazards are likely to be encountered, such as during non-fire-related rescue operations, emergency medical operations, and victim extrication.

Each bid shall be accompanied by a detailed description of the Firefighting Turnout Gear to which the Firefighting Turnout Gear furnished under contract shall conform. These specifications shall indicate materials, model, and make of all component parts and equipment.

PROTOTYPE TURNOUT GEAR

No prototype or experimental Firefighting Turnout Gear will be accepted. The Bidder or its supplier must demonstrate that it has successfully produced Firefighting Turnout Gear of similar design in the past five (5) years. Total deviation to these specifications will be cause for immediate rejection.

SERVICE ABILITY

Bidders shall provide details of their ability to warranty and service, replace, or repair the Firefighting Turnout Gear within fifteen days upon receipt of request from GFD.

EQUALS CLAUSE

Unless otherwise stated by the bidder, the bid will be considered in strict accordance with the specifications in this document.

REFERENCES TO A PARTICULAR TRADE NAME, MANUFACTURER'S CATALOG OR MODEL NUMBER ARE MADE FOR DESCRIPTIVE PURPOSES TO GUIDE BIDDERS IN INTERPRETING THE SPECIFICATIONS AND REQUIREMENTS OF THE GUAM FIRE DEPARTMENT.

These references should not be construed as excluding proposals of other types of materials or designs, unless otherwise stated. The bidder awarded the contract shall furnish each item referred to in the final specifications. **Bidders submitting specifications that are equal to or greater than these specifications, hereinafter referred to as "Equivalent(s)".**

FAILURE TO LIST EQUIVALENTS

Failure to list an equivalent means the contractor is complying 100% with these specifications. Firefighting Turnout Gear will be inspected on delivery for compliance with specifications. Exceptions will not be acceptable and can be cause for immediate rejection of Firefighting Turnout Gear unless they were originally listed in the bidder's submission. Liquidated damages (penalty) of one-fourth (¼) of one percent (1%) of outstanding order per calendar days shall be deducted from the final payment until the Firefighting Turnout Gear is considered acceptable.

A set of manufacturer's specifications, with pictures and scale drawings showing the front, rear, and side views of the proposed Firefighting Turnout Gear, must be submitted with the bid for the purpose of comparison. If a variation or omission between the pictures and drawings and the written specifications is discovered, the written specifications shall prevail.

SPECIAL REQUIREMENTS

The overall quality of the finished Firefighting Turnout Gear is critical to the Guam Fire Department. The bidder shall supply all special and specific information and facts regarding the performance of the Firefighting Turnout Gear, to include but not limited to the number of pockets and their sizes, garment closure methods (i.e. zippers, hook and loop fasteners, etc.) and material used for the different components of the Firefighting Turnout Gear.

DELIVERY TERMS

The bidder will deliver the completed Firefighting Turnout Gear within 180 calendar days from the date of notice of award to the current headquarters of the Guam Fire Department, Guam, USA.

ACCEPTANCE

Acceptance of the delivered Firefighting Turnout Gear and equipment will be made at the completion of inspection and the receipt of all specified equipment. Equipment items not delivered at the time of the tests or not in conformance with the IFB the Liquidated Damages Clause will apply.

WARRANTIES

All warranties described herein and within the specifications, are the minimum warranties that will be acceptable. Any warranty that does not meet these minimums shall be grounds for immediate rejection of the bid.

The Bidder shall provide a two (2) year service warranty to include repair defects caused by faulty design, quality of work or material. "Defects in Workmanship and Materials" means poorly manufactured seams, stitching, or components (for example, loose or broken seams; zippers or snaps that fall off or do not function properly); and fabrics or barriers which have such flaws as holes, uneven spots, weak areas, pilling, or other flaws caused by irregularities in their manufacture.

Cost of repairs refers to all costs related thereto including, but not limited to, the cost of materials and the cost of labor.

The Bidder shall warrant all materials and accessories used whether fabricated by the Manufacturer or purchased from an outside source and will deal directly with the Guam Fire Department on all warranty work.

The warranty shall commence upon acceptance of the Firefighting Turnout Gear.

DOCUMENTATION

The bidder shall supply, at the time of delivery, at least one copy of the following documents:

a. Compliance to NFPA Standard #1971 - 2013 Edition b.

Underwriters Laboratories classified mark

- c. Manufacturer's name
- d. Manufacturer's address
- e. Manufacturer's garment Identification number
- f. Date of Manufacture
- g. Size

Each garment shall also include a *User Information Guide* with information required by NFPA Standard 1971, 2013 Edition. This guide shall include at a minimum, the following: A. Pre-use information:

- 1. Safety considerations.
- 2. Limitations of use.
- 3. Garment marking recommendations and restrictions.
- 4. A statement that most performance properties of the garment cannot be tested by the user in the field.
- 5. Warranty information.
- B. Preparation for use:
- 1. Sizing/adjustment.
- 2. Recommended storage practices
- C. Inspection:
- 1. Inspection frequency and details.
- D. Don/Doff:
- 1. Donning and doffing procedures.
- 2. Sizing and adjustment procedures.
- 3. Interface issues.
- E. Use
- 1. Proper use consistent with NFPA 1500, Standard on Fire Department, Occupational Safety and Health Program, and 29 CFR 1910, 132.

- F. Maintenance and Cleaning:
- 1. Cleaning instructions and precautions with a statement advising users not to use garments that are not thoroughly cleaned and dried.
- 2. Maintenance criteria and methods of repair where applicable.
- 3. Decontamination procedures for both chemical and biological contamination.
- G. Retirement and disposal criteria:
- 1. Manufacturer's garment identification number
- 2. Date of manufacture
- 3. Size

THIRD-PARTY CERTIFICATION/ ISO COMPLIANCE

In order for an element to be labeled compliant to a given NFPA standard, it must be tested by an independent third-party organization that is not owned or controlled by manufacturers or vendors of the product being certified. The third-party testing agency cannot have any monetary interest in the product being certified.

Additionally, the certification organization must be primarily engaged in certification work, such as Underwriters Laboratory or Intertek Testing Services. This independent third-party company verifies that the design is in accordance with design requirements, and that the element has successfully passed all performance requirements set forth in the standard to which it is labeled.

Any change in materials or design requires additional testing, and random audits, including sampling, occurs at least twice a year to ensure that every requirement is tested annually. A third-party registrar is also required to validate the manufacturing quality process, in accordance with ISO 9001.

NFPA COMPLIANCE

NFPA is a standards writing organization, founded in 1896 and dedicated to the concept of voluntary consensus standards writing. While it is not an enforcing agency, NFPA enjoys a unique reputation and its standards have been adopted by all levels of government, in many cases giving the standards the force of law. Each NFPA standard undergoes revision every five (5) years to ensure that it is kept current with new fire protection knowledge and technologies. The NFPA process requires "balanced" committees and is open to anyone who wishes to participate.

NFPA 1971, 2013 EDITION Standard on Protective Ensembles for Structural Fire Fighting and Proximity Fire Fighting. This standard sets the minimum requirements for design, performance, testing, and certification of the elements of the ensemble for body protection in structural firefighting and in proximity firefighting – coats, trousers, one- piece suits, hoods, helmets, gloves, footwear, and interface elements such as wristlets.

As with all NFPA standards, the 2013 edition of NFPA 1971 replaced the 2007 edition, and all previous editions. The 2013 edition was approved as an American National Standard on August 29, 2012, with a final completion date of August 29,

2013. The 2013 edition continues to incorporate design and performance requirements for *optional* CBRN requirements, and includes several new definitions and revised labeling requirements. Changes have been made to the performance requirements for all of the ensemble elements, which are reflected in revised and/or new test methods.

For garments, one of the most noteworthy new requirements is a SET or stored energy test. This new requirement and associated test method is the culmination of several years of research as to why firefighters get burned under seemingly low heat flux conditions, even as the gear appears unaffected. As a result of research into this area, there is a new standardized test method for stored energy, titled ASTM F 2371.

ALL ELEMENTS OF THE FIREFIGHTER TURNOUT GEAR MUST MEET OR EXCEED NFPA 1971, 2013 EDITION OR MOST CURRENT. REGARDLESS OF SPECIFICATIONS OR MANUFACTURER CLAIMS, PROOF OF CERTIFICATION MUST BE AVAILABLE.

LIABILITY

The successful bidder shall defend any and all suits and assume all liability for the use of any patented process including any device or article forming a part of the Firefighting Turnout Gear or any appliance furnished under the contract.

WARRANTY PERFORMANCE

This Firefighting Turnout Gear is critical to the safety of the responders of the Guam Fire Department. It is imperative that the Firefighting Turnout Gear remain in service and that "down time" be minimized. The following warranty performance provisions are required:

The successful bidder shall be required to address service and or repair issues, as soon as possible but no more than

twenty-four hours after notification by the Fire Department.

If the bidder does not address the service/repair request within the twenty-four hour time frame, it will be assumed as approval for the Fire Department to repair the vehicle or obtain warranty service/repairs from component manufacturers or outside vendor(s) repair facilities. The Fire Department shall be paid, by the bidder; an area average hourly rate for labor inclusive of items replaced one for one.

Defective and other parts replaced, as a result of these service/repairs, will be labeled and retained by the Fire Department. Parts shall be paid for by the bidder in exchange for work orders and replaced parts. Outside vendor repair facility parts and labor charges shall be billed directly to the successful bidder.

The bidder shall take full responsibility for returning any defective parts to their supplier.

These aforementioned service and/or repairs will, in no way, affect the validity of any warranties as depicted within the approved specifications. There shall be no deviations to these requirements.

SPECIFICATIONS:	BIDDING ON / REMARKS:
Sizing To ensure a perfect fit, sizing shall be based on actual measurements taken of the firefighter by a trained measurement specialist, or sizing try-ons, or both. Women's sizing must be available.	
Sizing measurements shall be taken according to a schedule and location(s) mutually agreed between the manufacturer and the department.	
Garments shall be available in custom sizing as follows: coat chest in 2-inch (5.1 cm) increments, coat sleeve in 0.5-inch (1.3 cm) increments, coat back length in 1-inch (2.5 cm) increments, pant waist in 2-inch (5.1 cm) increments and pant inseam in 1-inch (2.5 cm) increments.	
Each sleeve and inseam length shall provide 100% gradation from shoulder to wrist, and from hip to ankle, to provide proper fit for individual arm and leg lengths. Pattern tailoring to custom-fit neck, bicep, hip/seat and thigh circumferences mus also be provided, when needed, at no additional charge.	t
Neither Small-Medium-Large-Extra Large sizing nor women's garments cut to men's patterning are considered acceptable, since proper fit facilitates mobility and minimizes stress.	
All components MUST be in compliance with the test specifications for NFPA 1971, 2013 Edition.	
Reflective Trim Only fluorescent reflective NFPA-compliant trim shall be used.	
Placement shall be determined by the department, but shall, as a minimum, meet the NFPA Current Edition.	
All trim shall be attached by double-stitching (four rows total).	
The trim shall be 3" Scotchlite "Triple Trim" Lime/Yellow with Silver.	
COAT SPECIFICAITON All components MUST be in compliance with the test specifications for NFPA 1971, 2013 Edition	
The coat shall be constructed of three separate body panels designed to afford Maximum unrestricted movement of the arms and shoulders.	
The coat shell and liner which are equal in length shall provide a minimum overlap of all protective layers (when worn with bunker pants) in accordance with NFPA 1500.	
All thread seams shall be constructed with thread appropriate for use for the service Requirements of the coat.	
Thread color shall match the color specified for the overall ensemble.	
The coat shall be constructed so that, when completely assembled, there shall be no direct metal contact from the exterior of the outer shell through the thermal barrier to the wearer's body.	
Closure on the front facings shall be a heavy-duty brass zipper with a "breakaway" feature or other acceptable securing method. (Specify)	
Sleeves The sleeves shall be of two piece construction and contoured, having an upper and a lower sleeve.	
Both the under and upper sleeve shall be graded in proportion to the chest size.	
Stove-pipe or raglan-style sleeve designs will be considered acceptable.	

A storm flap shall provide continuous thermal and moisture protection of the torso.	
The storm flap shall be constructed of four layers: moisture barrier and thermal barrier sandwiched between two layers of the outer shell material.	
Outer flap closure shall be hook and loop fastener the full length of the flap.	
Chest reflective trim pattern shall continue across the storm flap.	
Collar The collar shall provide continuous thermal and moisture protection to the face and neck. The collar shall be constructed of four layers: moisture barrier, thermal barrier and inside and outside layers of outer shall material.	
A hook, hook and loop fastener, or other acceptable method shall be used to secure loop on throat tab when in use. (Specify)	
An additional hook, hook and loop fastener, or other acceptable method shall be located on the outside collar for storage of throat tab when not in use. (Specify)	
A minimum 80-pound (36.3 kg) tear strength hang-up loop shall be provided at the exterior collar seam.	
The loop shall be constructed of triple layers of the specified outer shell material, stitched to the coat. Webbing is not acceptable.	
Elbow Thermal Enhancement	
An additional layer of thermal liner material shall be sewn to the elbow area of the liner system for added protection at contact points and increased thermal insulation in this high compression area.	
The elbow thermal enhancement layers shall be sandwiched between the thermal liner and moisture barrier layers of the liner system and shall be stitched to the thermal liner layer only.	
All edges shall be finished by means of over edging. Raw or unfinished edges shall be considered unacceptable.	
Thermal scraps shall not be substituted for full-cut fabric padding.	
Pockets Each jacket front body panel shall have a high expansion pocket, double stitched to it and shall be located such that the bottom of the pockets are at the bottom of the jacket for full functionality when used with an SCBA.	
Reflective trim shall run over the bottom of the pockets so as not to interrupt the trim stripe.	
Two rust resistant drain eyelets shall be installed in the bottom of each expansion pocket to facilitate drainage of water.	
Pocket flaps shall be double layered.	
The pocket flaps shall be rectangular in shape, constructed of two layers of outer shell material and shall measure wider than the pocket.	
The upper pocket corners and pocket flaps shall be reinforced.	
The pocket flaps shall be closed by means of hook and loop fastener or equivalent.	
Radio Pocket A radio pocket, located on the wearer's right chest, shall be constructed of outer shell Material and lined with moisture barrier.	
The pocket shall be large enough to accommodate radios currently in use by the Department with rust resistant eyelets for drainage.	

Radio pocket flaps of double layer shell material shall have an internal layer of moisture barrier and hook and loop for closure.	
The radio pocket flap shall be notched to accommodate the radio antenna on either side as user discretion.	
A strip of reflective trim shall be added to continue the trim pattern.	
Microphone Strap A strap constructed to hold a microphone for a portable radio, currently in use by the Department, shall be sewn to the jacket at the ends only.	
Microphone strap shall be mounted above the radio pocket and shall be constructed of double layer outer shell material.	
Sleeve Cuff Reinforcements The sleeve cuffs shall be reinforced.	
The cuff reinforcements shall not be less than 2 inch in width and folded in half, Approximately one half inside and one half outside the sleeve end for greater strength and abrasion resistance.	
The cuff reinforcement shall be double stitched to the sleeve end; a single row of stitching shall be considered unacceptable. Jackets finished with a turned and stitched cuff do not provide the same level of abrasion resistance and will be considered unacceptable.	
Wristlets Each jacket shall be equipped with hand and wrist guards (over the hand) not less than 7 inches in length and of double thickness.	
A separate thumbhole with an approximate diameter of 2 inches shall be recessed Approximately 1 inch from the leading edge.	
The wristlets shall be white in color and sewn to the end of the liner sleeves.	
Flame resistant neoprene coated cotton/polyester impermeable barrier material or equivalent shall be sewn to the inside of the sleeve shell.	
The sleeve well shall form an elasticized cuff end with a tab providing a snug fit at the wrist and covering the knit wristlet.	
Drag Rescue Device Coats shall be equipped with a self-contained rescue harness. The harness shall be placed between the outer shell and inner lining of the coat and when deployed shall secure the wearer under both arms.	,
Access to the handle of the harness shall be at the nape of the garment below the collar and placed in such a way as to operate properly without interference from SCBA.	
The handle of the harness shall be protected from the environment and weather by an access flap secured with hook and loop or similar material.	
The flap shall include a strip of matching reflective trim.	
The harness shall be easily accessible for periodic inspection.	
Coat Liner Inspection System There shall be an opening located on the coat liner separating the thermal barrier and moisture barrier. This opening will provide the ability to completely invert the coat liner to properly view the integrity of the entire liner system.	
This Liner Inspection System shall be completely hidden when the liner is properly installed into the outer shell.	

TROUSER SPECIFICATION All components MUST be in compliance with the test specifications for NFPA 1971 2013 Edition	
The pant shall be of a traditional waist-high-only design to facilitate full torso ventilation of front, rear and sides of trunk for maximum body cooling effect to help minimize firefighter heat stress.	
The pant shall be constructed of four separate body panels designed to afford Maximum unrestricted movement.	
All stitching shall meet the required breaking strength specified by the standard for the particular application. All stress areas shall be bar tacked for additional strength.	
All thread seams shall be constructed with Tex 90 Kevlar Thread or equivalent. Tex 90 Natural Nomex Thread or equivalent shall be used on all trim areas. (Specify)	
The pant shall be constructed so that, when completely assembled, there shall be no direct metal contact from the exterior of the outer shell through the thermal barrier to the wearer's body.	
The pant design facilitates the transfer of the weight of the pant to the hips instead of the shoulders and suspenders.	
Front fly/trouser opening shall be secured by means of a heavy-duty brass zipper with a "breakaway" feature or other acceptable securing method. (Specify)	
External / Internal Fly Flap The pants will have a vertical outside fly flap constructed of two layers of outer shell material, with a layer of moisture barrier material sandwiched between.	
The fly flap shall be double stitched to the left front body panel and shall measure Approximately 2 ½ inches wide, with a length graded to size based on waist measurement and reinforced with bar tacks at the base.	
An internal fly flap constructed of one layer of outer shell material, thermal liner and specified moisture barrier, measuring approximately 2 inches wide, with a length graded to size based on waist, shall be sewn to the leading edge of the right front body panel.	
The inside of the right front body panel shall be thermally enhanced directly under the outside fly with a layer of moisture barrier and thermal liner material.	
The underside of the outside fly flap shall have a hook and loop fastener tape stitched along the full length and through the shell material only; stitching shall not penetrate the moisture barrier insert between the two layers to insure greater thermal protection and reduced water penetration.	
A corresponding strip of hook and loop fastener tape shall be stitched to the outside right front body panel securing the fly in a closed position.	
Appropriate snap fastener halves shall be installed at the leading edge of the waistband for the purpose of further securing the pants in the closed position.	
Pockets The pockets shall be constructed of one layer of the outer shell material and lined with the vapor barrier.	
The pockets shall be reinforced with a full wraparound of outer shell material extending halfway up the pocket from the outside to the inside.	
Pocket flaps shall be double layered and extend ½" beyond each side of the pocket.	
Pockets shall be 10" x 10" cargo style expanding 2" all around.	

Pockets shall be equipped with two (2) rust resistant metal drain eyelets for drainage.	
Pocket flaps shall use appropriate hook and loop closure.	
Expansion Knees The knees shall be constructed with a series of vertically placed gussets sewn on the inside and outside of the outer shell, moisture barrier, and thermal barrier.	
Knee Reinforcement The knee area shall be reinforced with double-stitched abrasion resistant material to the pant shell.	
The layer shall include one layer of thermal barrier, or equivalent material and shall be listed as an alternative in the bid. (Specify)	
One layer shall be of foam for extra padding on the knees, sandwiched between the outer shell and knee reinforcement.	
Pant Cuff The cuff area of the pants shall be reinforced with abrasion resistant material. (Specify)	
The cuff reinforcement shall not be less than 2 inch in width and folded in half, approximately one half inside and one half outside the end of the legs for greater strength and abrasion resistance.	
The cuff reinforcement shall be double stitched to the outer shell for a minimum of two rows of stitching.	
Reverse Boot Cut The outer shell pant leg cuffs will be constructed such that the back of the leg is approximately 1 inch shorter than the front.	
The liner will also have a reverse boot cut at the rear of the cuff and a concave cut at the front to keep the liner from hanging below the shell. This construction feature will minimize the chance of premature wear of the cuffs and injuries due to falls as a result of "walking" on the pant cuffs.	
Pants that have "cut-outs" in the back panel rather than a contoured boot cut shall be Considered unacceptable.	
Reflective Trim All 3" fluorescent reflective NFPA-compliant trim shall be used. A band shall be placed completely around each pant leg approximately 3" above the hem.	
All trim shall be attached by double-stitching (four rows total). The trim shall be 3" Scotchlite "Triple Trim" Lime/Yellow with Silver or equivalent. (Specify)	
Pant Sizing Pants shall be available in even waist sizes; Inseams shall be in whole inch increments. Women's sizing must be available.	
Pant Liner Inspection System There shall be an opening located on the pant liner separating the thermal barrier and moisture barrier. This opening will provide the ability to completely invert the coat liner to properly view the integrity of the entire liner system.	
This liner system shall be completely hidden when the liner is properly installed	

shall be	ders f "H Back design" heavy-duty suspenders with padding at the shoulder supplied in the appropriate size, (e.g. short, regular, tall, extra tall, and to each pair of trousers).	
Waistb: One adj	pender will have clasps that allow for quick and easy sizing adjustments. ands ustment device shall be affixed to the outside on each side of the pant. se-up strap shall be comprised of two sub-component straps.	
	ith waist belts or other, appropriately designed take up straps will be red. (Specify)	
In addit	ET SPECIFICATION ion to meeting the requirements of NFPA 1971, Standard on Protective les for Structural Fire Fighting and Proximity Fire Fighting 2013 Edition, ighting helmets proposed shall have the following features:	
	Chemical and UV resistant fiberglass outer shell Eagle leather front holder with front High-heat thermoplastic inner shell Comfortable ratchet style headband Balanced crown straps and crown pad Chinstrap with quick-release buckle and slide fastener Rip-stop Nomex® ear/neck protector Removable fire-resistant, absorbent cotton brow pad Hard-coated optically-correct face shield (4 inch) Reflective Lime Trapezoids Hang-up loop Approved Impact liner	
The heli	mets shall be available in the following colors: Yellow; Red; and White	
In addit	E SPECIFICATION ion to meeting the requirements of NFPA 1971, Standard on Protective les for Structural Fire Fighting and Proximity Fire Fighting 2013 Edition,	_
the glov	es proposed shall have the following features: Fire Retardant Pathogen/Moisture Barrier certified as NFPA 1971 compliant Varied layering schemes to avoid bulking up finger side walls Mesh knit inner liner Glove inner liners sewn and bonded in at each fingertip Flexible knuckle guard system Stitching to prevent bunching up of material Gathered stitching around the entire wrist Primary protection from knitted Kevlar, Nomex, or other acceptable materials. Flexible and breathable	
All hoo	SPECIFICATION ds proposed MUST be in compliance with the test specifications for	
NFPA 1	971, 2013 Edition, and have the following standard features: Hood must be constructed of flame-resistant materials	
•	Pre-shrunk to minimize shrinkage	
•	Elastic face opening	
•	All bottom edges finished with a wear-resistant binding	

100% Nomex.

BOOT SPECIFICATION

All boots proposed MUST be in compliance with the test specifications for NFPA 1971, 2013 Edition, and have the following standard features:

- Structural Firefighting, with flexible athletic footwear construction
- Men's: 5-16 (full and half sizes), 17-18 (full sizes only) in narrow, medium, wide, and X-wide widths
- Minimum 13" high with wide calf model available in all sizes
- Flame resistant, waterproof heavy duty leather
- Composite puncture protection
- Slip resistant tread
- Pull-straps
- 3d molded and padded shin guard
- Composite safety toe cap and shank
- Toe bumper
- 3d molded removable footbed
- Protective shield
- Contoured cup outsole
 3m Scotchlite[™] or equivalent reflective material **(Specify)**
